## Monthly Report of May

This monthly report contains an overview of the activities conducted by Project Pothchola in May. Project Pothchola is a concern of Give Bangladesh Foundation and operates intending to make lives beautiful for the children of sex workers. As part of our regular operations, our volunteers conducted an educational session with the children at the “Joy Shokol Shishu” shelter home last month.

We carefully select the themes for our sessions to ensure that the children’s intellectual and emotional growth is nurtured, keeping them on par with their peers outside the shelter. This month, we focused on educating the children about ‘Heat Waves,’ an increasingly relevant topic given the rising global temperatures. To tailor the session to the different age groups, we divided the children into two groups: ‘Wings,’ consisting of younger children, and ‘Planes and Pilots,’ consisting of older children.

The session for ‘**Wings**’ was led by two volunteers and started with a short YouTube video about heat waves, followed by an interactive discussion. The children then engaged in a play that taught them about heat stroke and its prevention. The session concluded with a fun and educational segment called “**Beat the Heat,**” featuring **Freeze Dance** and **Water Relay** games. These activities were both entertaining and educational, reinforcing lessons about staying safe during extreme heat.

The session for ‘**Planes and Pilots**’ explored the significance of rivers and trees in relation to heat waves. After a brief discussion, the children played **dumb charades** with prompts related to heat waves and climate change, followed by a **quiz game** where they answered true or false questions. The children’s enthusiasm and engagement throughout the session were heartening, showcasing their eagerness to learn and participate.

**Your generous assistance and continual collaboration are having a substantial effect on the well-being of the children of sex workers through Project Pothchola. We greatly appreciate your support as a source of optimism in the lives of these innocent souls.**

**THANK YOU!**
